

## **Shu-Jiun (Sophy) CHEN**

Project Manager of Program Office of the National Digital Archives Program

(NDAP, <http://www.ndap.org.tw/>)

sophy@gate.sinica.edu.tw

Shu-Jiun (Sophy) Chen received her M.A. degrees in Library and Information Management from the Information Studies Department of University of Sheffield, UK in 1997, and now a PhD candidate in the Department and Graduate Institute of Library and Information Science at the National Taiwan University.

Ms Chen has been with the Computing Centre, Academia Sinica, Taiwan, where she is an Information Analyst since August 1, 1998. Ms Chen currently serves as Project Manager of Program Office of the National Digital Archives Program (NDAP, <http://www.ndap.org.tw/>), and also the Co-PI of the Metadata Architecture and Application Team (MAAT, <http://www.sinica.edu.tw/~metadata/index-eng.html>) of Research & Development of Technology Division of the NDAP, sponsored by the National Science Council, Taiwan.

Her research interests include digital libraries, metadata and knowledge organization, and human information behavior. She has published over 20 technical articles in refereed journals and conference proceedings
