

## **Biography**

Mr SHE Mang started his career as a Chemistry teacher and in 1982 became a Chemistry Subject Inspector. In 1995, he was appointed head of curriculum development for Sciences, Mathematics and Computer Education in the then Education Department. Mr SHE began fully committed to IT in Education in 1999 when the 5-year Strategy on IT in Education for Hong Kong kick-started. His main responsibilities were to provide professional support to teachers and schools on the implementation of IT in Education and to promote a community-wide IT in Education culture. In the past ten year, Mr SHE saw the development and implementation of three IT in Education strategies in Hong Kong. Recently, he has been involved in the formulation and implementation of the e-Learning initiative aiming to bring about a transformation of teacher-centred mode of teaching to student-centred mode of learning through the use of technology.
