

## **EPortfolios: Institutional Adoption Strategies**

Hokling CHEUNG

Office of Education Development and General Education,

City University of Hong Kong

wtchl@cityu.edu.hk

ePortfolio is an emerging trend with which students and teachers are empowered by technologies to manage, communicate and present their development and accomplishments. It is envisaged as a paradigm shift of e-Learning. In this presentation, the visions and pragmatic values of ePortfolios will be illustrated and CityU's experience and strategies for institutional adoption will be shared.
