lj dai@must.edu.mo

Compare to global or national resource sharing, regional sharing has many special advantages, it has become a new shifted focus at new phase. Some representative regional resource sharing organizations turn into our research objective. Throughout the history of cultural and library development in Macao, there's a gap between Macao and other regions. To keep up with other libraries in Great China, regional resource sharing is the shortcut for Macao libraries. The library development in Great China and the growing of CALIS organization provide a great opportunity for Macao field, holding this opportunity and starting to establish the regional resource sharing in Macao is our responsibility too.

共享域的概念和實踐在澳門推行之設想

区域共享较之全球共享和全国共享有许多特殊的優越性，为新形势下人们关注的焦点。一些有代表性的区域共享联盟成为我们研究的对象。纵观澳门地区的文化发展历史和图书馆发展的现状，澳门地区的图书馆事业的发展与其他地区的差距是明显的，走区域共享之路是快速跟上两岸四地图书馆发展之潮流的一条捷径。两岸四地的发展和 CALIS 的出现给澳门一个机会，利用這個機會，開始建立有澳門特點的區域共享域，是我們的責任。
